BLUEPRINT WORKSHOP

## 2022 AUSTRALIAN & NEW ZEALAND WORKSHOPS

### REAL SUCCESS IS MEASURABLE

High-performing organisations fulfil their mission, achieve their vision, reach targets that matter, and do this sooner and with less effort. They have a performance culture, of people fully engaged in their contribution to the organisation's success. Measuring performance, meaningfully, is an essential cornerstone to success.

### BUT WE STRUGGLE WITH MEASURES

Our struggles with measuring performance are, surprisingly, universal. They transcend organisation size, industry, sector, and even country. The most common struggles, from our research, are:

### IT'S BECAUSE OF BAD KPI HABITS

These struggles are due to bad habits that, in the absence of a true performance measurement approach, have become common practice. Some are:

- Writing goals with “weasel words”
- Using measures to judge people
- Brainstorming KPIs and measures
- Rushing too quickly to fancy dashboards
- Knee-jerk reacting to measure values
- Looking for quick-fixes to hit targets

### WE NEED A PERFORMANCE CULTURE

We can't wait until we have a performance culture before we focus on measuring performance. Good performance measurement is what builds a performance culture:

- It starts by replacing fear of judgement with a passion for learning how to lift performance.
- Then, we set clearer goals, measure them meaningfully, at all levels of the organisation.
- Now, we have useful information for evidence-based decisions that improve performance.
- This becomes a natural part of how we work, we reach stretch targets, and we lead our industry.
- We become a high-performance organisation, because what we aim for, we achieve.

To build a performance culture, our bad KPI habits must be unlearned, and replaced. The PuMP® Blueprint is the easy, fast and engaging way to replace them.

### THE PUMP BLUEPRINT WORKS

PuMP is a practical and logical 8-step process to choose, create and use measures to drive high-ROI improvement:

Archimedes said “Give me a lever long enough and a fulcrum on which to place it and I shall move the world.” The ‘world’ is our mission, vision and goals. The lever is our strategic initiatives. The fulcrum – what makes the leverage possible – is meaningful measurement.

BLUEPRINT WORKSHOP

## 2022 AUSTRALIAN & NEW ZEALAND WORKSHOPS

### THIS WORKSHOP IS PRACTICAL

The workshop program guides you through the exact steps you'll follow to implement PuMP back at work. For example, for the 3-day version, the first two days walk you through the eight steps of PuMP, so you know how to develop great measures. On the third day, you'll put the first few steps into practice, and head back to work with your measures already drafted.

Your implementation back at work will be supported by:

- A comprehensive reference workbook that will support your implementation back at work.
- A case study demonstrating the full application of the PuMP techniques, to model and inspire.
- All the time-saving templates and tools to use as you involve your colleagues in implementation.
- Free membership in the online PuMP Community, to boost your implementation.

"The stand-out feature of day 3 was the opportunity to apply the process to real-world problems we have in our area of Air Force strategy development & performance measurement. This helped reinforce my learning and also gave me a real-world start I can take back to my work." – Workshop participant in March 2016, New Zealand

### BECOME PUMP CERTIFIED

PuMP is certified by APMG, the world's leading accreditation and exam institute for professional certifications.

After completing the workshop, you can choose to take the PuMP Certification exam, and a certificate and digital badge is provided on your successful achievement of a

75% score. Taking the exam is a quick, easy and fun way to review what you learned at the workshop and increase the likelihood you'll apply PuMP successfully at work.

### STACEY BARR IS PUMP'S CREATOR

Stacey Barr, the Performance Measure Specialist, is the

creator of PuMP. She has specialised in organisational performance measurement since 1993. Stacey is known for her practicality, approachable presentation style, and innate ability to balance the technical and social sides of performance measurement.

"I cannot speak highly enough of Stacey and her Performance Measure Blueprint. There is a lack of good quality performance measurement training in Australia and I highly recommend Stacey's training as the best in the business." -- Melinda Varley, Director Business Performance Management, Australian Public Service

### OUR PRESENTERS ARE KPI EXPERTS

Mark Hocknell, Licensed PuMP Partner for Australia and Asia-Pacific, has been applying,

facilitating and teaching PuMP since 2007. He specializes in performance measurement and customer centric business. Mark has an open and collaborative style and is known for his ability to encourage and inspire people to see things in new ways.

"The workshop was brilliantly paced - normally on other full day workshops one can struggle to retain attention whereas at PuMP the pace was a good mix of listen, learn and apply steps, then break cycle." -- Steve Holley MBA BEng, Head of ICT Customer and Business Support, Gloucestershire Hospitals NHS Foundation Trust
